Womack, J.D. 331

Young, John C. 295

Zabowski, D. 103
Zasoski, R.J. 103

SUBJECT INDEX

(Volume 36)

acid rain, simulated, aluminum availability in soil and 193
acidification trends in Sweden 259
air pollutant accumulation by spruce forest 231
air pollutant, *Casuarina* and *Eucalyptus* response to 365
albumin, oxovanadium(V) ion binding with 247
algae sinking rate, toxicant effect on 155
aluminum, acidic, brown trout response to 371
aluminum in soil, acid rain ligands and 193

bioassay, bulk sediment, by oligochaetes 131
book review 227, 228, 391, 392

cadmium adsorption by forest soil 103
Casuarina response to gaseous air pollutant 365
chlorinated hydrocarbons in Kuwaiti sewage sludge 239
cobalt-60 retention by freshwater fish 207
collector design use for particle trace organics 171
copper adsorption by forest soil 103
crustacea, oil effect on 9

deposition, dry, velocity of, derivation of 311
deposition velocity of sulfur dioxide 331
diffusion, intraparticle, during dyestuff adsorption 381
dyestuff adsorption, intraparticle diffusion during 381

ecosystem, stream, sediment effects on 271
error in precipitation chemistry sampling 91
Eucalyptus response to gaseous air pollutant 365
Europe, atmospheric sulfur level, historical 47

fish, freshwater, cobalt-60 retention by 207
forest soil, heavy metal adsorption by 103
forest, spruce, air pollutant accumulation by 231
freshwater mesocosm, polychlorinated biphenyl transport in 33

groundwater, bacteriological quality assessment of 163

lichen, airborne metal study using 295
lichen analysis, mercury dispersal assessment by 219
lignin removal by soil perfusion 1

meltwater, acidic, composition of, in Scotland 75
mercury dispersal, assessment of, by soil/lichen analysis 219
metal, airborne, study by lichen analysis 295
metals, trace, in precipitation 349

oil effect on crustacean 9
oil product effect on crustacean 9
oligochaetes, sediment bioassay by 131

Parmelia praesorediosa, airborne metal study using 295
pollution transport model, wind rose incorporation in 115
polychlorinated biphenyl transport in freshwater mesocosm 33
precipitation chemistry, precision of sampling in 91
precipitation, trace organic particles in, collector for 171
precipitation, trace metals in 349

quality assessment, bacteriological, of groundwater 163

Ramalina stenospora, airborne metal study using 295

sampling, precipitation chemistry, precision of 91
Scotland, composition of acidic meltwater in 75
sediment bioassay by oligochaetes 131
sediment effects on stream ecosystem 271
sediment, polychlorinated biphenyl transport from 33
sewage sludge, chlorinated hydrocarbons in 239
sewage sludge, trace metals in 239
sludge leachate, soil adsorption of metals in presence of 103
soil aluminum, ligands in acid rain and 193
soil analysis, mercury dispersal assessment by 219
soil moisture effect on xylene spillage 23
soil perfusion, lignin removal by 1
sulfur dioxide deposition velocity 331
sulfur level in atmosphere, historical data 47
sulfur retention in Eastern U.S. watersheds 61

toxicant effect on algal sinking rate 155
trace metals in Kuwaiti sewage sludge 239
trout, brown, response to acidic aluminum 371

U.S., Eastern, sulfur retention in watersheds 61

vanadium(V) ion, oxo-, binding with ovalbumins 247

wind rose, incorporation of in pollution transport model 115

xylene spillage, soil moisture content effect on 23

zinc adsorption by forest soil 103
